The Fruit and Vegetable Market News Service uses an abbreviated code to save space in market reports and transmission time on the leased wire. This Dictionary is for use in transcribing market information received in abbreviated form. The abbreviations are listed in alphabetical order on the left hand column with the decoded definitions at the right. Locate the abbreviation in the Dictionary -- the full translation will be at the right.

Frequent use of the Dictionary will soon enable you to recognize the meaning of most abbreviations. Generally, they are short forms of the words they denote.
